

The English club plays an important role in our school community. It provides students with a friendly and supportive environment where they can practice English naturally through games, discussions, presentations, and cultural activities. It helps students build confidence, improve communication skills, and develop teamwork and creativity. More importantly, the club connects students who share the same passion for English, motivating them to learn beyond the classroom. With the strong support from the school board and teachers, the English Club has become a meaningful playground for learning, sharing, and personal growth for all members.
